

Client Testimonials

"For over 14 years, I have entrusted the care of my trees, plants and orchard to SavATree. Their highly qualified arborists have exacting standards and understand how to maintain the health and form of the various species of trees on my property. I admire the artistic skill that goes into the pruning and love the colorful blossoms, fruits and foliage that flourish as a result of their impeccable care."

Martha Stewart
Katonah, NY

Customer satisfaction is our number one priority. Tree care and lawn specialists at SavATree and SavaLawn take great pride in earning client praise for professional expertise, reliability and quality of services. That's why our customers enjoy the peace of mind that comes from working with a team committed to excellence and backed by our unconditional guarantee. Certified arborists work with homeowners and property managers to provide custom designed solutions and landscape enhancements sure to delight even the most discriminating customer.

"Alan and crew did a tremendous job at our house in Windsor yesterday, Monday, Sept. 28. With great skill they removed two large trees, trimmed another tree plus doing three other smaller projects. One of the trees was a significant challenge with a split in the trunk and branches extending over a busy Windsor Avenue. Alan engineered the project with careful attention to safety. I appreciated his friendly helpful manner throughout the day and his willingness to accommodate us with an additional request. At the end of the day I asked them if they always worked this hard! They acted as if this was just a normal day for them."

Julie Fewster
Windsor, CT

"Let me say that Vassar's association with SavATree has been very positive and we are achieving great success in managing our campus trees in terms of safety and aesthetics. And our insurance carrier is quite pleased with this effort. Vassar is pleased with SavATree and the work being performed on campus."

Jeffrey C. Horst, Vassar College
Poughkeepsie, NY

"Thank you for stopping by this morning to ensure that I knew what to expect during each phase of the removal of the maple tree in my front yard. The attention to detail, the adherence to best safety practices and procedures, the quality and camaraderie of the crew, and the communication between the arborist and the crew chief on what the job entailed made this venture a great experience. The entire operation was poetry in motion."

Judy Brennan
Springfield, VA

"Thank you for an excellent job. Your workers were very competent, very efficient, very clean- and, most of all, very polite!"

Phyllis Kahn
Hyannis Port, MA

"SavATree has worked closely with the National Trust for Historic Preservation to save and nurture trees at our historic sites. I appreciate the professionalism and dedication of SavATree's knowledgeable arborists. Thank you for the work you have done to preserve and enhance the natural landscape of our historic sites."

Richard Moe, President
National Trust for Historic Preservation

"Efficient, high quality, professional competence – all at a competitive sum. At first Alison Pottage won me over by her solid knowledge as an arborist, then the crew did their job to her specifications on our 60 to 70 foot oaks within a remarkable period of time -- and left the grounds quite clean."

Bob Busser
Philadelphia, PA

"We appreciate the time and attention that you and your Arbor Patrol team take to maintain the overall health and appearance of the trees, bushes and general grounds. As they say, you can only have one first impression and the impression the grounds make on both residents and visitors alike is always positive thanks to your caring maintenance. Just as the trees continue to grow and blossom under your care, we hope our relationship with SavATree does the same."

William Toedter
Southampton, NY

"I have been very happy with SavATree's services. In particular, their Arbor Patrol program gives me peace of mind knowing that someone is regularly scouting for insect, disease and structural issues before they accelerate and threaten the health of our trees and plantings."

Steve Wirth
Golf Course Superintendent
Cherry Valley Country Club
Skillman, NJ

"We always have a quick note of info after every treatment and even more important to us, SavATree always mentions our dogs. This is because we've requested no weed treatment on their fenced in area and SavATree assures us of this when such applications are made...And in addition to that, our lawn looks great! Thank you for your great service."

Kimberly and Bruce Williams
Cape Cod, MA

"My wife and I are very pleased with the professionalism and expertise of the Old Brookville branch of SavATree, whom we hired to perform tree services at our home. Beginning with the initial phone contact with the office manager. She was always pleasant and professional during each of my numerous calls. The arborist who came to provide an assessment and initial estimate, understood the tree services we needed and was very thorough and knowledgeable. Additionally, the professionals who performed the tree services were diligent, efficient and friendly. These professionals are hard working and are excellent in performing tree services. I would not hesitate to hire SavATree again and recommend their services without reservation."

Richard Chan
Dix Hills, NY

"I was speaking with my husband about all the workers we have had on our new landscape over the past year and a half and we are so pleased with you and your staff. I trust SavATree's knowledge, experience, and expertise. I also would like to thank you for always being available should an issue arise. I feel like we are in the best of hands. Thanks so much for making our property beautiful."

J. Stauber
Purchase, NY

"Five or six years ago, I wrote you a note singing the praises of my then arborist, Richard Eaton. I was sorry to see him go...For the past several years, Brad Gurr has been our arborist. I'm very happy to tell you that Brad takes just as good care of our trees as Richard did, and he, like Richard is a gracious and generous teacher, who goes out of his way to make sure that the trees on our property are healthy and well-groomed, if one can call a tree well-groomed! Warm regards...and thanks again for creating a company that's offered us so much."

April and Jim Benson
Ossining, NY

"I cannot say enough good things about your Old Saybrook office and the people who work there. I can say though, that it is due mainly to the people why I choose to do business there. I know that pricing is important, and your company is very competitive in the market here, but it's the people that really make it work. "

Kristin Lin Care, CPO, Evergreen Woods
North Branford, CT

"Since day one I had no doubts that the correct decision was made in choosing SavATree. As a team you have demonstrated time and time again that you truly have a vested interest in Roosevelt Island and our vision. Your professionalism and can do attitude really demonstrates that. So once again my sincere thanks to your entire team."

Michael Smith, Parks and Recreation Manager
Roosevelt Island Operating Corp.
New York, NY

"Your tree crew (a father and two sons) just finished removing two trees, and pruning another on my property. They were extremely neat and professional; making sure that everything was they way they found it. I could not be more satisfied. I definitely plan on using your company for any future tree work on my property, and will also heartily recommend you to anyone I know needing your services."

J. Andersen
Danbury, CT

"I want to commend you and your associates for the great work and the great attitude shown on my job. They were on time, friendly, professional and caring about doing the job right. As I was driving around my neighborhood I noticed how many different tree companies were at work over the past several days. They ranged from guys in a pickup with a chain saw to companies with their names on lots of expensive equipment to pay for. I also took time to look at the people who were working for those companies and using the equipment. I know it is not fair to judge a book by its cover, but I could not help thinking that I could have chosen any of their names at random from the phonebook. I am so happy that I happened to choose the best - SavATree. I will not hesitate to recommend you and to your company to anyone I meet who is considering tree work. I know they will thank me."

Lee Williams
Wayne, PA

"My arborist came to my property in early July to review the scope of work for a project. He gave me a mental vision of what the finished product would look like in enough detail that any novice could comprehend. During the day of the pruning, he came to the site a couple of times to offer further explanation of what the tree climbers were doing at the time and what was to follow. They were all very polite and the clean-up in front and back was meticulous. They are most competent in what they do and it is quite obvious that they truly enjoy their work. The finished product was even more outstanding than I first imagined. My neighbors and I thought my back yard looked so refreshed, it looked like someone else's property! Finally, Allan's courteous follow-up by phone was most appreciated."

Judy Bigelow
West Hartford, CT

"When I first called for a consultation for trees on my property I was most impressed with the professionalism of David and his colleagues. They were most knowledgeable, fair with their assessment about what needed to be done with the trees on my lot, yet very attuned with what my concerns and my most recent unacceptable experiences with another contractor. I highly recommend David Wesley and his crew without any hesitation. In a field where there is an abundance of folks looking to take advantage of consumers with many trees on their lot, SavATree, David and crew strike me as incredibly honest and proud arborists which do a fantastic job. Thanks for a job well done. I look forward to continuing my relationship with SavATree and David."

Debbie Durkin
Silver Spring, MD

"This past Saturday night about 8 P.M. during that terrible rain/wind storm, there was some excitement in my neighborhood. A huge, old, double oak tree split and came crashing down in my next door neighbor's driveway falling on their cars and also brought down the power and phone lines. The Wyckoff police were very responsive and advised my neighbors that they could not go back into their house so they stayed with me. They were very shaken and still traumatized at the wrath of Mother Nature. On Sunday, I was given Brian Brunsch's number at SavATree. I must say that my neighbor did call at least 4 other places and was only able to leave messages. Brian responded right away. His crew did the best they could to shore up the rest of the tree so that my neighbors would be protected from it falling anymore. They felt reassured and safe now. On Monday morning, his crew came to finish the job and what a job it was! They did meticulous work. With the exception of the stump still remaining for insurance evaluation, it doesn't look like anything happened. A lesson that was learned is to have your trees monitored by a tree expert and SavATree is the company to call."

Christine Schroller
President, Mortgage Professionals, Inc.
Wyckoff, NJ

"SavATree's crosscut sawing activity at Historic Hudson Valley's River Day festival at Van Cortlandt Manor was a wonderful addition to the event and a huge hit with our visitors. As always, your staff did a superb job- the skill with which they interact with the public is just extraordinary. All of us at Historic Hudson Valley are most grateful for SavATree's partnership, both as a steward of our historic landscape and as a presenter of dynamic programs that enliven our special events."

Wadell W. Stillman, President
Historic Hudson Valley, NY
